VOLUME 73 · SUBJECT INDEX

Ablation, Simultaneous mapping of the tricuspid and mitral valve annuli at electrophysiological study 377
Acadesine, Role of acadesine in clinical myocardial protection 304
Access, Expanding access to coronary artery bypass surgery 129
Accessory pathway, Simultaneous mapping of the tricuspid and mitral valve annuli at electrophysiological study 377
ACE gene polymorphisms, Rapid methods for population-scale analysis for gene polymorphisms 368
ACE inhibitors
ACE for whom? Implications for clinical practice of post-infarct trials 470
ACE inhibitors after myocardial infarction 395, 397
Combining salicylate and enalapril in patients with coronary artery disease and heart failure 227
Do radionuclide and echocardiographic techniques give a universal cut off value for left ventricular ejection fraction that can be used to select patients for treatment with ACE inhibitors after myocardial infarction? 466
Responses of plasma concentrations of A type natriuretic peptide and B type natriuretic peptide to alacepril, an angiotensin-converting enzyme inhibitor, in patients with congestive heart failure 584
Active compression-decompression device, Active decompression improves the haemodynamic state during cardiopulmonary resuscitation 372
Acute inferior myocardial infarction, Is thrombolytic therapy in acute inferior myocardial infarction really better than conventional treatment? 108
Acute myocardial infarction
Delay between the onset of symptoms of acute myocardial infarction and seeking medical assistance is influenced by left ventricular function at presentation 125
Experience of primary angioplasty in the UK 414
Immediate angioplasty 407
Immediate angioplasty in the United Kingdom 413
Left ventricular volumes, ejection fraction, and plasma proatrial natriuretic factor (1–98) after withdrawal of enalapril treatment initiated early after myocardial infarction 506
Limitations of primary angioplasty in acute myocardial infarction 409
Primary angioplasty 405
Primary angioplasty in a community hospital in the USA 411
Primary angioplasty in acute myocardial infarction 403
Primary angioplasty is the most effective treatment for an acute myocardial infarction 403
Prognostic significance of transient myocardial ischaemia after first acute myocardial infarction 320
Survival after acute myocardial infarction in Asian and white patients in Birmingham 122
Adenosine, Haemodynamic deterioration after treatment with adenosine 103
β adrenoceptor downregulation, β adrenoceptor density in the donor heart 540
Adult arterial compliance, Growth in utero, adult blood pressure, and arterial compliance 116
Adverse coronary events, Identification of patients at high risk for adverse coronary events while awaiting routine coronary angioplasty 216
Advisers, List of advisers 394
Agism
Issues in cardiac pacing 101
Women and myocardial infarction 87
Alacepril, Responses of plasma concentrations of A type natriuretic peptide and B type natriuretic peptide to alacepril, an angiotensin-converting enzyme inhibitor, in patients with congestive heart failure 584
Alcohol, New year toast...to the cardioprotective effects of alcohol 8
Angina
Incidence, clinical characteristics, and short-term prognosis of angina pectoris 193
Vasoconstrictor peptides and cold intolerance in patients with stable angina pectoris 25
Angiography, Are the economically active more deserving? 385
Angioplasty
Efficacy of a third coronary angioplasty for a second restenosis 327
Guide wire graffito 505
Anomalous pulmonary venous connection, Fetal echocardiography in detecting anomalous pulmonary venous connection 355
Anthracycline
Impairment of diastolic function during short-term anthracycline chemotherapy 61
Left ventricular diastolic function after anthracycline chemotherapy in childhood 340
Anticoagulation, Anticoagulation after intracoronary stent insertion 393
Systemic thromboembolism leading to myocardial infarction and stroke after fenestrated total cavopulmonary connection 483
Antioxidants, Antioxidant nutrients, atherosclerosis, and coronary heart disease 299
Antiviral therapy, Potential for antiviral therapy in the treatment of restenosis after angioplasty 489
Aortic coarctation
Arm-ankle systolic blood pressure difference at rest and after exercise in the assessment of aortic coarctation 270
Mitral valve hypoplasia in children with isolated coarctation of the aorta 199
Aortic elastic properties, Aortic distensibility and stiffness index measured by magnetic resonance imaging in patients with Marfan's syndrome 265
Aortic stenosis
Comparison of Doppler echocardiographic methods with heart catheterisation in assessing aortic valve area in 100 patients with aortic stenosis 293
Gender differences in left ventricle geometry and function in patients undergoing balloon dilatation of the aortic valve for isolated aortic stenosis 548
Nitrates and severe aortic stenosis 586
Aortic valve area, Comparison of Doppler echocardiographic methods with heart catheterisation in assessing aortic valve area in 100 patients with aortic stenosis 293
Arterial duct, Responses of the post-term arterial duct to oxygen, prostaglandin E_2, and the nitric oxide donor, 3-morpholinosydnonimine, in lambs and their clinical implications 177
Asians, Insulin resistance, high prevalence of diabetes, and cardiovascular risk in immigrant Asians 584
Asymptomatic ischaemia, Asymptomatic ischaemia during daily life in stable coronary artery disease 101
Atherosclerosis
Antioxidant nutrients, atherosclerosis, and coronary heart disease 299
High wall shear stress proximal to myocardial bridging and atherosclerosis 462
Is increased tissue ferritin a risk factor for atherosclerosis and ischaemic heart disease? 208
Atrial anatomy, Architecture of atrial musculature in humans 559
Atrial fibrillation
Increased markers of thrombogenesis in chronic atrial fibrillation 527
Value of transoesophageal echocardiography before DC cardioversion in patients with atrial fibrillation 306
Atrial flutter, Effect of exercise on cycle length in atrial flutter 263
Atrial muscles, Architecture of atrial musculature in humans 559
Atrioventricular conduction, Change in delay of atrioventricular conduction after radiofrequency catheter ablation for atrioventricular nodal re-entry tachycardia 442
Atrioventricular node, Change in delay of atrioventricular conduction after radiofrequency catheter ablation for atrioventricular nodal re-entry tachycardia 442
Audit of pacemaker practice, Permanent pacemaker practice at a Scottish district general hospital between 1987 and 1993 475
Autonomic failure, Twenty four hour continuous non-invasive finger blood pressure monitoring 290
Autonomic nervous system, Differential autonomic mechanisms underlying early morning and daytime transient myocardial ischaemia in patients with stable coronary artery disease 134

Birth weight, Birth weight, weight at one year, and left ventricular mass in adult life 363
Björk-Shiley mitral valve prosthesis, Strut fracture of the Convexo-Concave Björk-Shiley mitral valve prosthesis 391
Blalock-Taussig shunts, Closure of Blalock-Taussig shunts using a new detachable coil device 383

Blood pressure
Arm-ankle systolic blood pressure difference at rest and after exercise in the assessment of aortic coarctation **270**
Growth in utero, adult blood pressure, and arterial compliance **116**
Body surface area, Left ventricular diastolic function in children measured by Doppler echocardiography **334**
British Cardiac Society, Report of a working group of the British Cardiac Society **201**

Captopril
Effects of captopril and oxygen on sleep apnoea in patients with mild to moderate congestive cardiac failure **237**
Peripheral haemodynamic effects of inhibition of prostaglandin synthesis in congestive heart failure and interactions with captopril **434**
Cardiac catheterisation, Comparison of Doppler echocardiographic methods with heart catheterisation in assessing aortic valve area in 100 patients with aortic stenosis **293**
Cardiac defects, Transcatheter occlusion of cardiac defects **585**
Cardiac failure, β adrenoceptor density in the donor heart **540**
Cardiac function, Plasma proatrial natriuretic factor (1–98) concentration after myocardial infarction **511**
Cardiac hypertrophy, Cellular mechanisms of cardiac hypertrophy **496**
Cardiac marker proteins, Comparison of five cardiac markers in the detection of reperfusion after thrombolysis in acute myocardial infarction **422**
Cardiac surgery, Continuous low dose inhaled nitric oxide for treatment of severe pulmonary hypertension after cardiac surgery in paediatric patients **65**
Cardiac tamponade, How do the clinical findings in patients with pericardial effusions influence the success of aspiration? **351**
Cardiac transplantation
β adrenoceptor density in the donor heart **540**
Atheroembolism in an endomyocardial biopsy from a cardiac transplant recipient after coronary angioplasty **581**
Cardiomyoplasty, Dynamic cardiomyoplasty for heart failure **1**
Cardioplegia, Warm blood cardioplegia **206**
Cardioprotection, New year toast...to the cardioprotective effects of alcohol **8**
Cardiopulmonary bypass, Coronary surgery without cardiopulmonary bypass **203**
Cardiopulmonary resuscitation, Active decompression improves the haemodynamic state during cardiopulmonary resuscitation **372**
Cardiovascular disease, Birth weight, weight at one year, and left ventricular mass in adult life **363**
Cardioversion, Value of transoesophageal echocardiography before DC cardioversion in patients with atrial fibrillation **306**
Cardioverter-defibrillator
Benefits of treatment with implantable cardioverter-defibrillators in patients with stable ventricular tachycardia without cardiac arrest **158**
Implantation of cardioverter-defibrillators at district general hospitals **392**
Infections after cardioverter-defibrillator implantation **20**
Catheter ablation, Change in delay of atrioventricular conduction after radiofrequency catheter ablation for atrioventricular nodal re-entry tachycardia **442**
Cellular mechanisms, Cellular mechanisms of cardiac hypertrophy **496**
Central venous cannulation, Safety of thrombolytic treatment in patients with central venous cannulation **359**
Chelation therapy, Reversal of haemochromatotic cardiomyopathy in β thalassaemia by chelation therapy **486**
Children
Continuous low dose inhaled nitric oxide for treatment of severe pulmonary hypertension after cardiac surgery in paediatric patients **65**
Nutritional status of children with congenital heart disease **277**
Twiddler's syndrome in children **190**
Ventricular tachycardia and exercise related syncope in children with structurally normal hearts **544**
Cholesterol lowering, Cholesterol lowering does have a role in secondary prevention **4**
Clinical trials
ACE for whom? Implications for clinical practice of post-infarct trials **470**
ACE inhibitors after myocardial infarction **395, 397**
Cold intolerance, Vasoconstrictor peptides and cold intolerance in patients with stable angina pectoris **25**
Complications of permanent pacing, Early complications of permanent pacemaker implantation **571**
Congenital heart defects
Combined atrial and arterial switch procedure for congenital corrected transposition with ventricular septal defect **479**
Increasing cyanosis early after cavopulmonary connection caused by abnormal systemic venous channels **182**
Influence of ethnic origin on the pattern of congenital heart defects in the first year of life **173**
Congenital heart disease
Comparison of three dimensional echocardiographic findings with anatomical specimens of various congenitally malformed hearts **566**
Nutritional status of children with congenital heart disease **277**
Congestive heart failure
Effects of captopril and oxygen on sleep apnoea in patients with mild to moderate congestive cardiac failure **237**
Peripheral haemodynamic effects of inhibition of prostaglandin synthesis in congestive heart failure and interactions with captopril **434**
Responses of plasma concentrations of A type natriuretic peptide and B type natriuretic peptide to alacepril, an angiotensin-converting enzyme inhibitor, in patients with congestive heart failure **584**
Constrictive pericarditis, Predictors of constrictive pericarditis after tuberculous pericarditis **187**
Continuous finger blood pressure monitoring, Twenty four hour continuous non-invasive finger blood pressure monitoring **290**
Convexo-concave, Strut fracture of the Convexo-Concave Björk-Shiley mitral valve prosthesis **391**
Coronary angioplasty
Atheroembolism in an endomyocardial biopsy from a cardiac transplant recipient after coronary angioplasty **581**
Identification of patients at high risk for adverse coronary events while awaiting routine coronary angioplasty **216**
Immediate and long-term clinical outcome of coronary angioplasty in patients aged 35 years or less **82**
Coronary artery bypass surgery
Coronary surgery without cardiopulmonary bypass **203**
Determinants of the length of stay in intensive care and in hospital after coronary artery surgery **92**
Expanding access to coronary artery bypass surgery **129**
Coronary artery disease
Cholesterol lowering does have a role in secondary prevention **4**
Differential autonomic mechanisms underlying early morning and daytime transient myocardial ischaemia in patients with stable coronary artery disease **134**
Increased monocyte tissue factor expression in coronary disease **10**
Pathophysiology and time course of silent myocardial ischaemia during mental stress **242**
Coronary artery vasospasm, Positron emission tomography with oxygen-15 of stunned myocardium caused by coronary artery vasospasm after recovery **69**
Coronary atheroembolism, Atheroembolism in an endomyocardial biopsy from a cardiac transplant recipient after coronary angioplasty **581**
Coronary care units, National perspective of acute coronary care in the Republic of Ireland **576**
Coronary heart disease
Antioxidant nutrients, atherosclerosis, and coronary heart disease **299**
National perspective of acute coronary care in the Republic of Ireland **576**
Coronary microcirculation, Assessment of coronary microcirculation with myocardial contrast echocardiography **490**
Corrected transposition, Combined atrial and arterial switch procedure for congenital corrected transposition with ventricular septal defect **479**
Cyanosis, Increasing cyanosis early after cavopulmonary connection caused by abnormal systemic venous channels **182**
Cycle length, Effect of exercise on cycle length in atrial flutter **263**
Cyclic guanosine monophosphate (cGMP), Ergometric exercise testing and sensitivity of cyclic guanosine 3′,5′-monophosphate (cGMP) in diagnosing asymptomatic left ventricular dysfunction **145**
Cytokines, Expression of tumour necrosis factor α and accumulation of fibronectin in coronary artery restenotic lesions retrieved by atherectomy **534**

Daytime transient myocardial ischaemia, Differential autonomic mechanisms underlying early morning and daytime transient myocardial ischaemia in patients with stable coronary artery disease **134**
Diabetes, Effects of type 1 diabetes mellitus on cardiac function **450**
Diastolic function, Impairment of diastolic function during short-term anthracycline chemotherapy **61**
Direct access, Direct access exercise electrocardiography **199**
District general hospital
Electrophysiology in a district general hospital **76**
Permanent pacemaker practice at a Scottish district general hospital between 1987 and 1993 **475**
District general hospitals, Implantation of cardioverter-defibrillators at district general hospitals **392**
Diuretics, Please Sir! GPs treat cardiac failure too! **199**
Doppler echocardiography
Comparison of Doppler echocardiographic methods with heart catheterisation in assessing aortic valve area in 100 patients with aortic stenosis **293**
Left ventricular diastolic function after anthracycline chemotherapy in childhood **340**
Left ventricular diastolic function in children measured by Doppler echocardiography **334**
Doppler measurement, Doppler reconstruction of left ventricular pressure from functional mitral regurgitation **53**
Dual chamber pacing, Early complications of permanent pacemaker implantation **571**
Dyspnoea, "Why am I short of breath, doctor?" **393**

Early diagnosis, Will serum enzymes and other proteins find a clinical application in the early diagnosis of myocardial infarction? **102**
Echocardiography
Comparison of three dimensional echocardiographic findings with anatomical specimens of various congenitally malformed hearts **566**
Do radionuclide and echocardiographic techniques give a universal cut off value for left ventricular ejection fraction that can be used to select patients for treatment with ACE inhibitors after myocardial infarction? **466**
Economic activity, Are the economically active more deserving? **385**
Electrophysiology
Electrophysiology in a district general hospital **76**
Simultaneous mapping of the tricuspid and mitral valve annuli at electrophysiological study **377**
Embolism, Value of transoesophageal echocardiography before DC cardioversion in patients with atrial fibrillation **306**
Enalapril withdrawal, Left ventricular volumes, ejection fraction, and plasma proatrial natriuretic factor (1–98) after withdrawal of enalapril treatment initiated early after myocardial infarction **506**
Endogenous opioids, Activation and inhibition of the endogenous opioid system in human heart failure **41**
Endomyocardial biopsy, Atheroembolism in an endomyocardial biopsy from a cardiac transplant recipient after coronary angioplasty **581**
Endomyocardial fibrosis, Endomyocardial fibrosis in Egypt **284**
Endorphins, Increase in plasma β endorphins precedes vasodepressor syncope **488**
Enlarged coronary sinus and superior vena cava, Fetal echocardiography in detecting anomalous pulmonary venous connection **355**
Enoximone, Quality of life in heart failure treated with enoximone **584**
Ethnic origin
Influence of ethnic origin on the pattern of congenital heart defects in the first year of life **173**
Survival after acute myocardial infarction in Asian and white patients in Birmingham **122**
Exercise, Ventricular tachycardia and exercise related syncope in children with structurally normal hearts **544**
Exercise capacity, Ventilatory responses to exercise in adults after repair of tetralogy of Fallot **445**
Exercise testing
Arm-ankle systolic blood pressure difference at rest and after exercise in the assessment of aortic coarctation **270**
Direct access exercise electrocardiography **199**
Effect of exercise on cycle length in atrial flutter **263**
Ergometric exercise testing and sensitivity of cyclic guanosine 3′,5′-monophosphate (cGMP) in diagnosing asymptomatic left ventricular dysfunction **145**
Placebo controlled trial of felodipine in patients with mild to moderate heart failure **428**

Familial dilated cardiomyopathy, Familial dilated cardiomyopathy in the United Kingdom **417**
Fast track, Determinants of the length of stay in intensive care and in hospital after coronary artery surgery **92**
Felodipine, Placebo controlled trial of felodipine in patients with mild to moderate heart failure **428**
Fenestrated total cavopulmonary shunt, Systemic thromboembolism leading to myocardial infarction and stroke after fenestrated total cavopulmonary connection **483**
Ferritin, Is increased tissue ferritin a risk factor for atherosclerosis and ischaemic heart disease? **208**
Fetal echocardiography, Fetal echocardiography in detecting anomalous pulmonary venous connection **355**
Fetal growth, Growth in utero, adult blood pressure, and arterial compliance **116**

Gender, Gender differences in left ventricle geometry and function in patients undergoing balloon dilatation of the aortic valve for isolated aortic stenosis **548**
General practitioners, Direct access exercise electrocardiography **199**
Gingival hyperplasia, Gingival hyperplasia with nifedipine **115**
Graffito, Guide wire graffito **505**

Haemochromatosis
Haemochromatosis presenting as congestive cardiac failure **73**
Reversal of haemochromatotic cardiomyopathy in β thalassaemia by chelation therapy **486**
Haemodynamic and renal effects of indomethacin, Peripheral haemodynamic effects of inhibition of prostaglandin synthesis in congestive heart failure and interactions with captopril **434**
Haemodynamic deterioration, Haemodynamic deterioration after treatment with adenosine **103**
Haemodynamic state during cardiopulmonary resuscitation, Active decompression improves the haemodynamic state during cardiopulmonary resuscitation **372**
Heart failure
ACE inhibitors after myocardial infarction **395, 397**
Activation and inhibition of the endogenous opioid system in human heart failure **41**
Baroreflex sensitivity and cardiovascular mortality in patients with mild to moderate heart failure **517**
Combining salicylate and enalapril in patients with coronary artery disease and heart failure **227**
Dynamic cardiomyoplasty for heart failure **1**
Ergometric exercise testing and sensitivity of cyclic guanosine 3′,5′-monophosphate (cGMP) in diagnosing asymptomatic left ventricular dysfunction **145**
Haemochromatosis presenting as congestive cardiac failure **73**
Placebo controlled trial of felodipine in patients with mild to moderate heart failure **428**
Please Sir! GPs treat cardiac failure too! **199**
Quality of life in heart failure treated with enoximone **584**
Heart rate variability, Heart rate variability in left ventricular hypertrophy **139**
Heparin, Inhibition of superoxide production in human neutrophils by combinations of heparin and thrombolytic agents **14**
Hypertension, Impaired left ventricular filling in hypertensive left ventricular hypertrophy as a marker of the presence of an arrhythmogenic substrate **258**
Hypertrophic cardiomyopathy, Pacing for obstructive hypertrophic cardiomyopathy **107**
Hypocalcaemia, Dynamic assessment of the electrocardiographic QT interval during citrate infusion in healthy volunteers **523**
Hypoplastic systemic ventricle, Surgery for infants with a hypoplastic systemic ventricle and severe outflow obstruction **456**
Hysteresis, Dynamic assessment of the electrocardiographic QT interval during citrate infusion in healthy volunteers **523**

Idiopathic dilated cardiomyopathy, Familial dilated cardiomyopathy in the United Kingdom **417**
Implantable defibrillators, Use of the implantable defibrillator **6**
Incidence, Incidence, clinical characteristics, and short-term prognosis of angina pectoris **193**

Infancy, Influence of ethnic origin on the pattern of congenital heart defects in the first year of life **173**
Infection, Infections after cardioverter-defibrillator implantation **20**
Inferior vena cava, Leiomyosarcoma in the right atrium and occluding the inferior vena cava **236**
Inflammatory cells, Expression of tumour necrosis factor *a* and accumulation of fibronectin in coronary artery restenotic lesions retrieved by atherectomy **534**
Inoue balloon rupture, Inoue balloon rupture during dilatation of calcified mitral valves **390**
Insulin resistance, Insulin resistance, high prevalence of diabetes, and cardiovascular risk in immigrant Asians **584**
Intensive care stay, Determinants of the length of stay in intensive care and in hospital after coronary artery surgery **92**
Interventional closure, Closure of Blalock-Taussig shunts using a new detachable coil device **383**
Intracoronary pressure
High wall shear stress proximal to myocardial bridging and atherosclerosis **462**
Pathophysiology and time course of silent myocardial ischaemia during mental stress **242**
Ischaemia, Prognostic significance of transient myocardial ischaemia after first acute myocardial infarction **320**
Ischaemic heart disease, Direct access exercise electrocardiography **199**

Left ventricular diastolic function, Suppression of left ventricular early diastolic filling by long axis asynchrony **151**
Left ventricular diastolic function in children
Left ventricular diastolic function after anthracycline chemotherapy in childhood **340**
Left ventricular diastolic function in children measured by Doppler echocardiography **334**
Left ventricular dilatation, Left ventricular volumes, ejection fraction, and plasma proatrial natriuretic factor (1–98) after withdrawal of enalapril treatment initiated early after myocardial infarction **506**
Left ventricular dysfunction
Detection of left ventricular dysfunction after myocardial infarction **101**
Ergometric exercise testing and sensitivity of cyclic guanosine 3′,5′-monophosphate (cGMP) in diagnosing asymptomatic left ventricular dysfunction **145**
Left ventricular ejection fraction, Do radionuclide and echocardiographic techniques give a universal cut off value for left ventricular ejection fraction that can be used to select patients for treatment with ACE inhibitors after myocardial infarction? **466**
Left ventricular enlargement, Birth weight, weight at one year, and left ventricular mass in adult life **363**
Left ventricular function
Delay between the onset of symptoms of acute myocardial infarction and seeking medical assistance is influenced by left ventricular function at presentation **125**
Pathophysiology and time course of silent myocardial ischaemia during mental stress **242**
Left ventricular hypertrophy
Heart rate variability in left ventricular hypertrophy **139**
Impaired left ventricular filling in hypertensive left ventricular hypertrophy as a marker of the presence of an arrhythmogenic substrate **258**
Left ventricular mass, Gender differences in left ventricle geometry and function in patients undergoing balloon dilatation of the aortic valve for isolated aortic stenosis **548**
Lipid peroxidation products, Transient release of lipid peroxidation products as a non-invasive marker of successful reperfusion after thrombolysis for myocardial infarction **223**
Long axis asynchrony, Suppression of left ventricular early diastolic filling by long axis asynchrony **151**

Magnetic resonance imaging, Aortic distensibility and stiffness index measured by magnetic resonance imaging in patients with Marfan's syndrome **265**
Mahaim pathways, Radiofrequency catheter ablation of Mahaim tachycardia by targeting Mahaim potentials at the tricuspid annulus **250**
Marfan's syndrome, Aortic distensibility and stiffness index measured by magnetic resonance imaging in patients with Marfan's syndrome **265**
Matrix, Expression of tumour necrosis factor *a* and accumulation of fibronectin in coronary artery restenotic lesions retrieved by atherectomy **534**
Medical devices, Medical devices **401**
Mental stress, Pathophysiology and time course of silent myocardial ischaemia during mental stress **242**
Mitral regurgitation, Doppler reconstruction of left ventricular pressure from functional mitral regurgitation **53**
Mitral stenosis, Percutaneous balloon dilatation of the mitral valve in critically ill young patients with intractable heart failure **555**
Mitral valve calcification, Inoue balloon rupture during dilatation of calcified mitral valves **390**
Mitral valve hypoplasia, Mitral valve hypoplasia in children with isolated coarctation of the aorta **199**
Mitral valve prolapse, Increased dispersion of refractoriness in the absence of QT prolongation in patients with mitral valve prolapse and ventricular arrhythmias **37**
Monocytes, Increased monocyte tissue factor expression in coronary disease **10**
Myocardial bridging, High wall shear stress proximal to myocardial bridging and atherosclerosis **462**
Myocardial contrast echocardiography, Assessment of coronary microcirculation with myocardial contrast echocardiography **490**
Myocardial infarction
ACE for whom? Implications for clinical practice of post-infarct trials **470**
ACE inhibitors after myocardial infarction **395, 397**
Detection of left ventricular dysfunction after myocardial infarction **101**
Nitrates in myocardial infarction **310**
Nocturnal hypoxaemia after myocardial infarction **488**
Plasma proatrial natriuretic factor (1–98) concentration after myocardial infarction **511**
QT dispersion and components of the QT interval in ischaemia and infarction **32**
Safety of thrombolytic treatment in patients with central venous cannulation **359**
Transient release of lipid peroxidation products as a non-invasive marker of successful reperfusion after thrombolysis for myocardial infarction **223**
Will serum enzymes and other proteins find a clinical application in the early diagnosis of myocardial infarction? **102**
Women and myocardial infarction **87**
Myocardial protection, Role of acadesine in clinical myocardial protection **304**
Myocarditis and aortitis, Cardiac involvement in Wegener's granulomatosis **110**

Natriuretic peptides A and B, Responses of plasma concentrations of A type natriuretic peptide and B type natriuretic peptide to alacepril, an angiotensin-converting enzyme inhibitor, in patients with congestive heart failure **584**
Neutrophils, Inhibition of superoxide production in human neutrophils by combinations of heparin and thrombolytic agents **14**
Nifedipine, Gingival hyperplasia with nifedipine **115**
Nitrates
Nitrates and severe aortic stenosis **586**
Nitrates in myocardial infarction **310**
Nitric oxide
Continuous low dose inhaled nitric oxide for treatment of severe pulmonary hypertension after cardiac surgery in paediatric patients **65**
Responses of the post-term arterial duct to oxygen, prostaglandin E_2, and the nitric oxide donor, 3-morpholinosydnonimine, in lambs and their clinical implications **177**
Nocturnal hypoxaemia, Nocturnal hypoxaemia after myocardial infarction **488**
Non-clinical factors, Are the economically active more deserving? **385**
Norwood procedure, Surgery for infants with a hypoplastic systemic ventricle and severe outflow obstruction **456**
Nutritional status, Nutritional status of children with congenital heart disease **277**

Oxygen treatment
Effects of captopril and oxygen on sleep apnoea in patients with mild to moderate congestive cardiac failure **237**
Responses of the post-term arterial duct to oxygen, prostaglandin E_2, and the nitric oxide donor, 3-morpholinosydnonimine, in lambs and their clinical implications **177**

Pacemaker failure, Twiddler's syndrome in children **190**
Pacemaker infection, Antibiotic prophylaxis in permanent pacemaker implantation **392**
Pacing
Issues in cardiac pacing **101**
Pacing for obstructive hypertrophic cardiomyopathy **107**
Permanent pacing in patients with tricuspid valve replacements **169**
Permanent pacemaker practice at a Scottish district general hospital between 1987 and 1993 **475**
Paediatric surgery, Combined atrial and arterial switch procedure for congenital corrected transposition with ventricular septal defect **479**
Palliation, Surgery for infants with a hypoplastic systemic ventricle and severe outflow obstruction **456**
Paradoxical embolism, Near miss paradoxical embolism **103**
Parasympathetic nervous system, Baroreflex sensitivity and cardiovascular mortality in patients with mild to moderate heart failure **517**
Patient delay, Delay between the onset of symptoms of acute myocardial infarction and seeking medical assistance is influenced by left ventricular function at presentation **125**
Peel index, Detection of left ventricular dysfunction after myocardial infarction **101**
Percutaneous balloon dilatation, Percutaneous balloon dilatation of the mitral valve in critically ill young patients with intractable heart failure **555**
Pericardial effusion, How do the clinical findings in patients with pericardial effusions influence the success of aspiration? **351**
Peripheral vascular disease, Peripheral vascular disease **199**
Polymorphism, Genetic variation in human stromelysin promoter is associated with progression of coronary atherosclerosis **209**
Population analysis, Rapid methods for population-scale analysis for gene polymorphisms **368**
Positron emission tomography, Positron emission tomography with oxygen-15 of stunned myocardium caused by coronary artery vasospasm after recovery **69**
Pregnancy, Percutaneous balloon dilatation of the mitral valve in critically ill young patients with intractable heart failure **555**
Prevention of reinfarction, Combining salicylate and enalapril in patients with coronary artery disease and heart failure **227**
Primary angioplasty
Experience of primary angioplasty in the UK **414**
Immediate angioplasty **407**
Immediate angioplasty in the United Kingdom **413**
Limitations of primary angioplasty in acute myocardial infarction **409**
Primary angioplasty **405**
Primary angioplasty in a community hospital in the USA **411**
Primary angioplasty in acute myocardial infarction **403**
Primary angioplasty is the most effective treatment for an acute myocardial infarction **403**
Proatrial natriuretic factor (1–98), Plasma proatrial natriuretic factor (1–98) concentration after myocardial infarction **511**
Prognosis
Baroreflex sensitivity and cardiovascular mortality in patients with mild to moderate heart failure **517**
Incidence, clinical characteristics, and short-term prognosis of angina pectoris **193**
Prognostic significance of transient myocardial ischaemia after first acute myocardial infarction **320**
Progression of coronary artery disease, Genetic variation in human stromelysin promoter is associated with progression of coronary atherosclerosis **209**
Prophylaxis, Antibiotic prophylaxis in permanent pacemaker implantation **392**
Prospective screening study, Familial dilated cardiomyopathy in the United Kingdom **417**
Prostaglandin, Combining salicylate and enalapril in patients with coronary artery disease and heart failure **227**
Prostaglandins
Peripheral haemodynamic effects of inhibition of prostaglandin synthesis in congestive heart failure and interactions with captopril **434**
Responses of the post-term arterial duct to oxygen, prostaglandin E_2, and the nitric oxide donor, 3-morpholinosydnonimine, in lambs and their clinical implications **177**
Pulmonary hypertension
Continuous low dose inhaled nitric oxide for treatment of severe pulmonary hypertension after cardiac surgery in paediatric patients **65**
Endotracheal tolazoline for severe persistent pulmonary hypertension of the newborn **99**

QT dispersion, Increased dispersion of refractoriness in the absence of QT prolongation in patients with mitral valve prolapse and ventricular arrhythmias **37**
QT interval
Dynamic assessment of the electrocardiographic QT interval during citrate infusion in healthy volunteers **523**
QT dispersion and components of the QT interval in ischaemia and infarction **32**
Quality of life, Quality of life in heart failure treated with enoximone **584**

Radiofrequency ablation, Radiofrequency catheter ablation of Mahaim tachycardia by targeting Mahaim potentials at the tricuspid annulus **250**
Radionuclide angiography
Do radionuclide and echocardiographic techniques give a universal cut off value for left ventricular ejection fraction that can be used to select patients for treatment with ACE inhibitors after myocardial infarction? **466**
Impairment of diastolic function during short-term anthracycline chemotherapy **61**
Rapid genotyping, Rapid methods for population-scale analysis for gene polymorphisms **368**
Recurrence, Supravalvar mitral stenosis **164**
Referral decisions, Are the economically active more deserving? **385**
Regulations, Medical devices **401**
Rehabilitation, Report of a working group of the British Cardiac Society **201**
Relative wall thickness, Gender differences in left ventricle geometry and function in patients undergoing balloon dilatation of the aortic valve for isolated aortic stenosis **548**
Renal function, Plasma proatrial natriuretic factor (1–98) concentration after myocardial infarction **511**
Renin-angiotensin-system, Baroreflex sensitivity and cardiovascular mortality in patients with mild to moderate heart failure **517**
Reperfusion
Comparison of five cardiac markers in the detection of reperfusion after thrombolysis in acute myocardial infarction **422**
Transient release of lipid peroxidation products as a non-invasive marker of successful reperfusion after thrombolysis for myocardial infarction **223**
Repolarisation, Ventricular tachycardia and exercise related syncope in children with structurally normal hearts **544**
Republic of Ireland, National perspective of acute coronary care in the Republic of Ireland **576**
Restenosis
Efficacy of a third coronary angioplasty for a second restenosis **327**
Expression of tumour necrosis factor α and accumulation of fibronectin in coronary artery restenotic lesions retrieved by atherectomy **534**
Potential for antiviral therapy in the treatment of restenosis after angioplasty **489**
Revascularisation, Efficacy of a third coronary angioplasty for a second restenosis **327**
Right atrial leiomyosarcoma, Leiomyosarcoma in the right atrium and occluding the inferior vena cava **236**
Right ventricular dominance, Fetal echocardiography in detecting anomalous pulmonary venous connection **355**
Risk stratification, Identification of patients at high risk for adverse coronary events while awaiting routine coronary angioplasty **216**

Schistosomiasis, Endomyocardial fibrosis in Egypt **284**
Secondary prevention, Cholesterol lowering does have a role in secondary prevention **4**
Serum enzymes, Will serum enzymes and other proteins find a clinical application in the early diagnosis of myocardial infarction? **102**
Sexism, Women and myocardial infarction **87**
Single chamber pacing, Early complications of permanent pacemaker implantation **571**
Sleep apnoea, Effects of captopril and oxygen on sleep apnoea in patients with mild to moderate congestive cardiac failure **237**
Speedwell study, Peripheral vascular disease **199**
ST depression, Effects of streptokinase in patients presenting

within 6 hours of prolonged chest pain with ST segment depression **500**
ST segment depression, Detection of left ventricular dysfunction after myocardial infarction **101**
Stenting, Anticoagulation after intracoronary stent insertion **393**
Stromelysin, Genetic variation in human stromelysin promoter is associated with progression of coronary atherosclerosis **209**
Strut fracture, Strut fracture of the Convexo-Concave Björk-Shiley mitral valve prosthesis **391**
Stunned myocardium, Positron emission tomography with oxygen-15 of stunned myocardium caused by coronary artery vasospasm after recovery **69**
Superoxide production, Inhibition of superoxide production in human neutrophils by combinations of heparin and thrombolytic agents **14**
Supravalvar mitral stenosis, Supravalvar mitral stenosis **164**
Surgery, Increasing cyanosis early after cavopulmonary connection caused by abnormal systemic venous channels **182**
Surgical resection, Supravalvar mitral stenosis **164**
Survival after original infarct, Survival after acute myocardial infarction in Asian and white patients in Birmingham **122**
Syncope
Head-up tilt testing **583**
Increase in plasma β endorphins precedes vasodepressor syncope **488**
Ventricular tachycardia and exercise related syncope in children with structurally normal hearts **544**

Tachycardia, Radiofrequency catheter ablation of Mahaim tachycardia by targeting Mahaim potentials at the tricuspid annulus **250**
Tetralogy of Fallot, Ventilatory responses to exercise in adults after repair of tetralogy of Fallot **445**
β thalassaemia, Reversal of haemochromatotic cardiomyopathy in β thalassaemia by chelation therapy **486**
Three dimensional reconstruction, Comparison of three dimensional echocardiographic findings with anatomical specimens of various congenitally malformed hearts **566**
Thromboembolism, Systemic thromboembolism leading to myocardial infarction and stroke after fenestrated total cavopulmonary connection **483**
Thrombolysis, Comparison of five cardiac markers in the detection of reperfusion after thrombolysis in acute myocardial infarction **422**
Thrombolytic agents, Inhibition of superoxide production in human neutrophils by combinations of heparin and thrombolytic agents **14**
Thrombolytic treatment
Effects of streptokinase in patients presenting within 6 hours of prolonged chest pain with ST segment depression **500**
Is thrombolytic therapy in acute inferior myocardial infarction really better than conventional treatment? **108**
Transient release of lipid peroxidation products as a non-invasive marker of successful reperfusion after thrombolysis for myocardial infarction **223**
National perspective of acute coronary care in the Republic of Ireland **576**
Safety of thrombolytic treatment in patients with central venous cannulation **359**
Thrombotic markers, Increased markers of thrombogenesis in chronic atrial fibrillation **527**
Tilt testing, Head-up tilt testing **583**
Tissue factor, Increased monocyte tissue factor expression in coronary disease **10**
Tolazoline, Endotracheal tolazoline for severe persistent pulmonary hypertension of the newborn **99**
Training, Training in cardiology **302**
Transcatheter occlusion
Closure of Blalock-Taussig shunts using a new detachable coil device **383**
Transcatheter occlusion of cardiac defects **585**
Transoesophageal echocardiography
Cardiac involvement in Wegener's granulomatosis **110**
Value of transoesophageal echocardiography before DC cardioversion in patients with atrial fibrillation **306**
Tricuspid annulus, Radiofrequency catheter ablation of Mahaim tachycardia by targeting Mahaim potentials at the tricuspid annulus **250**
Tricuspid valve replacement, Permanent pacing in patients with tricuspid valve replacements **169**
Tuberculous pericarditis, Predictors of constrictive pericarditis after tuberculous pericarditis **187**
Twiddler's syndrome, Twiddler's syndrome in children **190**
Twins, Effects of type 1 diabetes mellitus on cardiac function **450**

Ultrasonics, High wall shear stress proximal to myocardial bridging and atherosclerosis **462**
Unstable angina, Effects of streptokinase in patients presenting within 6 hours of prolonged chest pain with ST segment depression **500**
USA, Use of the implantable defibrillator **6**

Vasoconstrictor peptides, Vasoconstrictor peptides and cold intolerance in patients with stable angina pectoris **25**
Venesection, Haemochromatosis presenting as congestive cardiac failure **73**
Ventilatory response, Ventilatory responses to exercise in adults after repair of tetralogy of Fallot **445**
Ventricular arrhythmia, Increased dispersion of refractoriness in the absence of QT prolongation in patients with mitral valve prolapse and ventricular arrhythmias **37**
Ventricular fibrillation, QT dispersion and components of the QT interval in ischaemia and infarction **32**
Ventricular function, Effects of type 1 diabetes mellitus on cardiac function **450**
Ventricular late potentials, Impaired left ventricular filling in hypertensive left ventricular hypertrophy as a marker of the presence of an arrhythmogenic substrate **258**
Ventricular septal defect, Morphological, haemodynamic, and clinical variables as predictors for management of isolated ventricular septal defect **49**
Ventricular tachycardia
Benefits of treatment with implantable cardioverter-defibrillators in patients with stable ventricular tachycardia without cardiac arrest **158**
Impaired left ventricular filling in hypertensive left ventricular hypertrophy as a marker of the presence of an arrhythmogenic substrate **258**
Ventricular tachycardia and exercise related syncope in children with structurally normal hearts **544**

Wall stress, High wall shear stress proximal to myocardial bridging and atherosclerosis **462**
Warfarin, Increased markers of thrombogenesis in chronic atrial fibrillation **527**
Warm blood, Warm blood cardioplegia **206**
Wegener's granulomatosis, Cardiac involvement in Wegener's granulomatosis **110**
Weight at one year, Birth weight, weight at one year, and left ventricular mass in adult life **363**

Young patients, Immediate and long-term clinical outcome of coronary angioplasty in patients aged 35 years or less **82**
